

Frequency converter

Frequency Converter Fv

Frequency converter

Frequency Converter Fv

Documentation

- Brake chopper with up to 30 kW continuous braking power
- Easy to operate and service (detachable fan, LCD operating panel with copy function)
- Advanced functions and high performance
- Reliable quality
- CE marking and UL certification
- Worldwide availability and service

The Rexroth Frequency Converter Fv is the new, optimized drive solution for the automation of various applications in the power range up to 90 kW. The different operating modes voltage/frequency (V/f), sensorless vector control (SVC), or field-oriented vector control (FOC) allow a wide range of applications.

The data specified above only serve to describe the product.
As our products are constantly being further developed, no
statements concerning a certain condition or suitability for a certain
application can be derived from our information. The information
given does not release the user from the obligation of own judgment
and verification.

It must be remembered that our products are subject to a natural
process of wear and aging.
